Addendum #1 – “Questions and Answers”

Best Value Bid #1502-038 Traffic Counting Services

Questions and Answers

1. For Bid Item 2C and 2D, this price is per lane?
 - a. No, this is the price for the approach independent of the number of lanes. This item will be used for minor street approaches to major roadways for the purpose of collecting traffic counts for a traffic signal warrant study. During the last contract, the maximum number of lanes on an approach that the City requested a by lane count of was three (3).
2. Regarding the Delivery Days, can you confirm that the number of delivery days is from the issuance of the task/traffic count request?
 - a. Yes, it is from the issuance of the request.
3. Regarding References, is it okay to use State agency references or are you requiring City references?
 - a. The City is requesting the most applicable references possible to show that the requested services have been successfully performed.
4. Page 20 of 27, second to last paragraph, the RFP states the City Traffic Staff can change the Automatic Daily Traffic Count request from a Volume count to include Classification, Speed, and Headway. If this is the case, should there be additional bid items since Classification/Speed/Headway counts require additional labor and equipment.
 - a. There will not be an additional bid item. If classification, speed, and/or headway is ordered the appropriate tasks will be used to provide compensation for the additional tube and labor required to capture the data. For example, if a 3 day, one direction classification count is requested the City will order two (2) units of task 2A and four (4) units of task 2B. This will provide payment for two tubes for three days. If classification had not been requested, the City would have ordered one (1) unit of task 2A and two (2) units of task 2B.

Bidders are required to acknowledge receipt of this addendum by initialing in the appropriate space on the bid document. The due date for this bid remains February 19, 2015, by 2:00pm CST.

Vendors who may have already submitted a bid and feel this addendum may change their bid, may pick up their bid, and return it by the closing date. If picking up the bid is not feasible, any new bid submitted by your firm will supersede one previously submitted.

If there is a discrepancy between this addendum and the bid documents, this addendum prevails.

Sincerely,

Daniel Ford, CPPO, CPPB
Purchasing Manager
